

LaTeX

lateX

/lah:tech/lay:tech/

a document preparation system
for technical and scientific
medium to large documents

Comparison Between Latex and Word

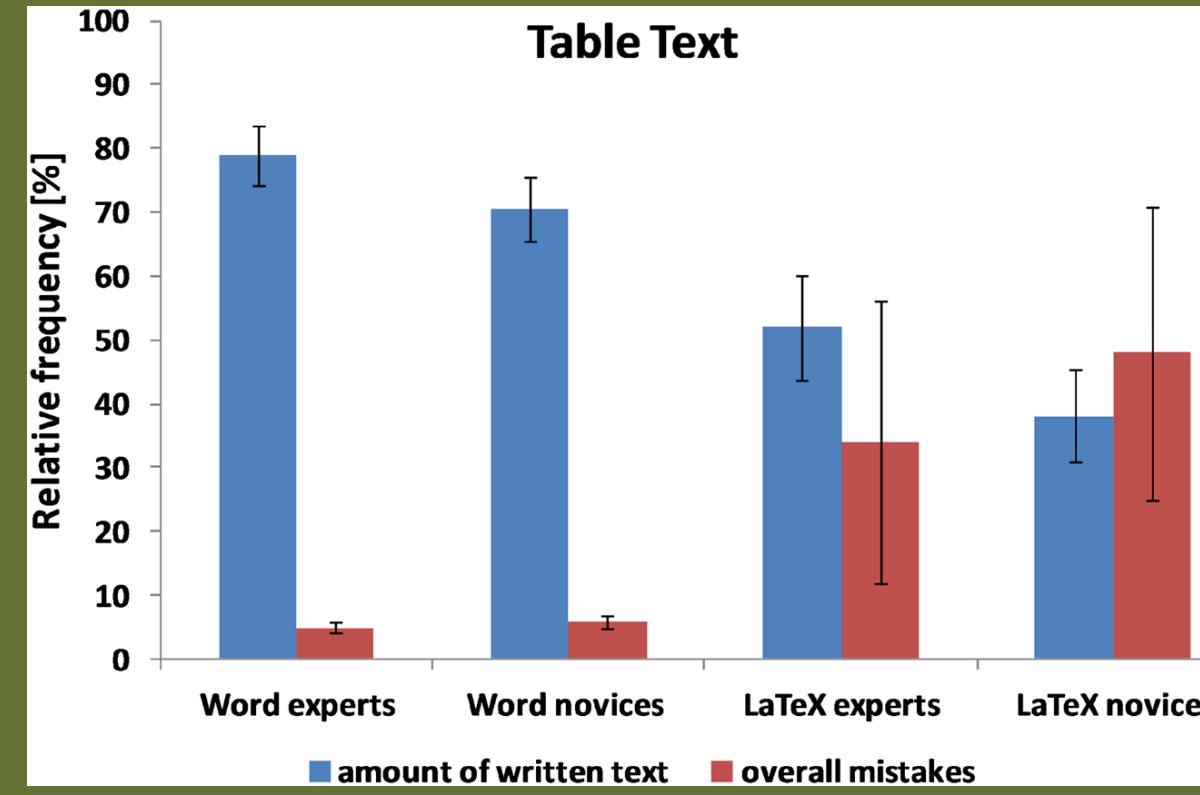

Long and complex documents
Optimized for quality
Free and open source
Complete formula support
Edit style with small changes

Focus on content not design

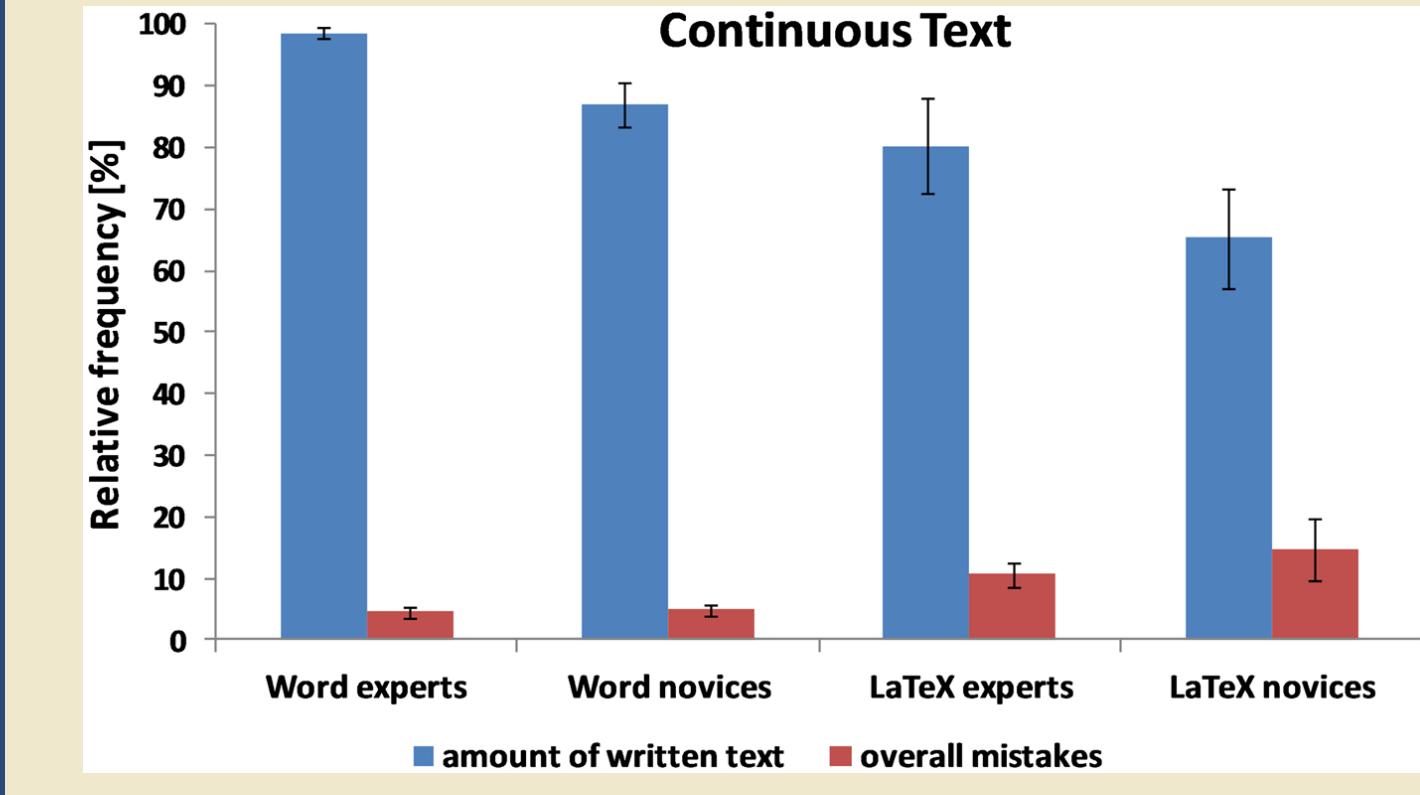

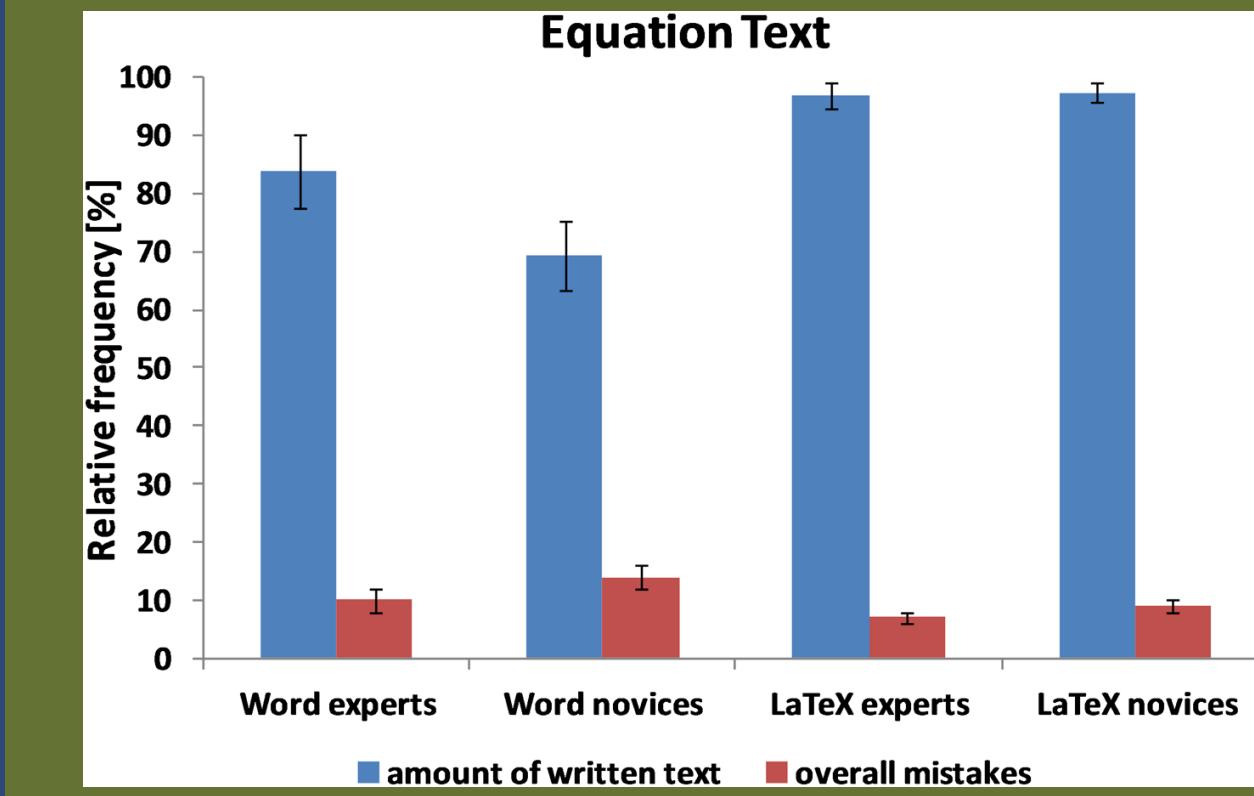

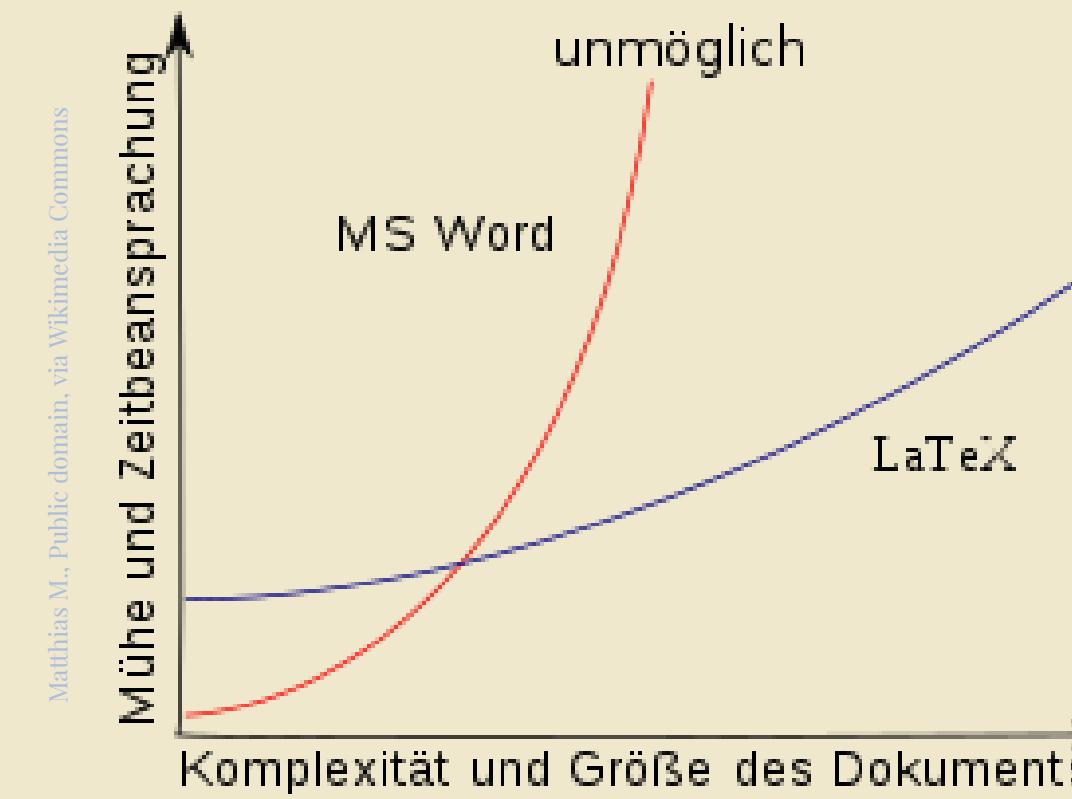

Short and visual documents
Optimized for speed
Annual payment plans
Limited formula support
Edit style with big changes

What you see is what you get

Difficulty

Complexity

EDITORS

A circular arrangement of LaTeX tools and editors, including Overleaf, Texworks, LyX, BibTeX, Beamer, TeXShop, TeXmaker, Online, TexStudio, Offline, Texworks, and Editors, set against a dark blue and purple starry space background.
